a. If such project is approved for construction by FHWA and the funds are available for construction of the project, the State with the aid and consent of FHWA will proceed to advertise for, receive and open bids, and subject to the concurrence of FHWA and the Local Agency, award the contract, enter into a contract with a firm to whom the award is made for the construction of the project, such project to be performed, completed, accepted and paid for in accordance with the requirements of the Standard Specifications for Road and Bridge Construction of the Highways Division, Arizona Department of Transportation. Further, the State will enter into a Project Agreement with FHWA covering the work embraced in said contract or in this agreement and will request the maximum federal funds available.

b. The State will furnish Local Agency with a copy of the proposed Project Agreement to be entered into by the State and FHWA and any Railroad Company Agreement necessary for the full completion of this project. Upon approval of the terms and conditions of the Project Agreement and any State-Railroad Company Agreement by the Local Agency, the agreements shall be incorporated in and made a part of this agreement by reference and shall have the same force and effect as though fully written herein. Further, the Local Agency is bound by all the terms of any State-Railroad Company Agreement and will reimburse the State for the amount contracted for by and between the Railroad Company and the State acting as agent for the Local Agency.

c. Should some unforeseen conditions or circumstances increase the cost of said work required by a change in the extent or scope of the work called for in this agreement, the State shall not be obligated to incur any expenditure in excess of the amount of Local Agency's deposit unless and until so authorized in writing by the Local Agency.

2. Prior to the solicitation of bids, the Local Agency shall deposit with State funds in the amount determined by the State to be necessary to match federal funds in the ratio required. Upon completion of the construction contract, the State shall return to the Local Agency any part of the funds deposited by Local Agency remaining after Local Agency's pro rata share of the cost, as finally fixed and determined by FHWA, has been paid.

3. The Local Agency shall acquire, without cost to the State, the necessary right-of-way and hereby certifies that all necessary rights-of-way have been acquired.

4. The Local Agency shall remove from the proposed right-of-way all obstructions or unauthorized encroachments of whatever nature, either above or below the surface of the roadway, and hereby certifies that all obstructions and encroachments have been removed therefrom, prior to the start of construction.

5. The Local Agency shall not permit or allow any encroachments, except those authorized by permit, upon, or private use of, the right of way. In the event of any unauthorized encroachment or improper use, the Local Agency shall take all necessary steps to remove or prevent any such encroachment or use; failing in which the State shall have the right to proceed with the removal or prevention thereof, the cost of such removal or prevention to be borne by the Local Agency.

6. Local Agency will provide personnel to supervise construction. The FHWA will participate in the cost of construction supervision provided by Local Agency at the pro rata established in the Project Agreement for up to 15 percent of the cost of construction. Construction supervision costs not participated in by FHWA shall be borne by the Local Agency. All Construction project change orders are to be approved by the State.

7. Local Agency will complete the project in accordance with approved plans and specifications and the requirements of the relevant State and federal statutes, rules, or regulations. In the event the Local Agency fails to comply with the plans, specifications or any relevant State or federal statutes, rules, or regulations, it shall hold the State harmless from any claims or costs incurred by the State as a result of Local Agency's failure to comply.

8. State employees may perform any inspections of the project or audit any books or records of the Local Agency the State employees deem necessary, in order for the State to satisfy itself that the monies on the project have been spent and the project completed in accordance with the plans and specifications, statutes, rules, and regulations of the State and Federal government.

9. Upon completion of construction, the Local Agency shall provide for, at its own cost and as an annual item in its budget, proper maintenance, including, but not limited to, traffic signals, signs, islands, curbs and markings necessary for the purpose of regulating, warning and guiding traffic.

10. The Local Agency shall mark and sign school crossings and railway-highway grade crossings in accordance with the requirements of the current edition of the Manual on Uniform Traffic Control Devices for Streets and Highways.
